

OPEN DESKS

Desk tops made of 40 mm stratified tops. Available finishes: white, light acacia, dark acacia and zebrawood with rounded edges. 30 mm thick.

Leg frames made of extruded aluminium sections which are connected between them by means of melted aluminium pieces. They are joined together by means of mechanical joints. Available finishes: chrome or white Epoxy paint. ABS plastic regulators available in the same finishes. Leg frames can have an inner 19 mm melamine panel with the same finishes as the desk tops, or an inner panel made of tempered glass finish in white, black or copper, or no panel at all. Cable management can be introduced in the leg frame by means of a totally integrated plastic groove. Both leg frames are connected between them by means of a 50x30x2 rectangular steel tube which is painted in RAL 9006 colour and M8 screw.

Modesty panels are optional. They are made of 19 mm melamine panel with 2 mm rounded edges. The available finishes are the same as the desk tops ones, as well as tempered glass finish in white, black or copper. The structure is joined to the table by means of a metal fitting which can be finish in white or chrome.

BOARDROOM TABLE TOPS

Rectangular with the same finishes as the desk tops. Width 120 cm, different lengths. The central leg frame is narrower than the other two legs and its sides have been covered by 19 mm melamine panels. One of them is extractable for cable management. Some desk tops also allow the installation of a desktop cable management channel made of extruded anodised aluminium finish in silver colour, with its electrification kit.

Round desk tops made of a 40 mm MDF veneered panels with white, light acacia, dark acacia or zebrawood colour paper. Rounded edge, 30 mm thick, finish in polyurethane lacquer made of two components. Aluminium column leg finish in chrome or white Epoxy paint, combined with pieces made of 25 mm melamine with the same finish as the desk top. Round base made of 5mm steel with bevelled edges.

BOOKCASES

Bookcase frame movable top and bottom in 25 mm melamine, with front sides made of 2 mm PVC plastic and rest of sides of 0.8 mm. Sides made of 19mm melamine, front sides made of 2 mm PVC and rest of sides of 0.8 mm. Back made of 8mm melamine. Available finishes: white, light acacia, dark acacia and zebrawood. 75x75x30 mm inserted square height regulators made of plastic available in silver colour or white.

Hinged doors and filing drawer fronts made of 19 mm melamine. Finish in 2 mm PVC edges.

Available colours: white, light acacia, dark acacia and zebrawood. Bar fastening in doors. Chrome aluminium handles chased to the door. 4 mm tempered glass doors finish in white, black or copper, framed by an aluminium profile.

Metal files painted in black Epoxy. They are provided with an anti-tilt system and assembled on telescopic slides.

Shelves made of 25 mm melamine. Finish depending on frame. They have to be ordered separately.

Short bookcases can be provided with a side frame with shelves and with no door. It is made of round shape stratified laminate MDF.

Sides are covered with 2000x1000 mm pieces with a thickness of 28 mm. They are made of a structure of aluminium profiles finish in Epoxy textured RAL-9006 paint, as well as of 25 mm melamine finish in white, light acacia, dark acacia and zebrawood.

PEDESTALS

Mobile with castors or assembled on credences available.

Bookcase frame made of 19 mm melamine, available in white, light acacia, dark acacia and zebrawood. Edges made of 0.8 mm PVC.
